

## Spy on the neighbours

Sir Robert McAlpine has completed 116 luxury Thames-side flats in Westminster. Riverwalk consists of two curvaceous blocks of six and 17 storeys at the northern end of Vauxhall Bridge, over the river from M16. Architect Stanton Williams said the design was inspired by the Thames. Three quarters of the one- to four-bedroom flats have been sold, said Gerald Ronson of Ronson Capital Partners, the new investment firm set up by the Heron founder. Derwent London was co-developer.
